
CABAC
HAVE YOU SEEN THE
NEW
CABAC
INDUSTRIAL
AEROSOL RANGE?
CABAC
One Call → One Day → One Delivery

Here it is!

Here are eight more reasons why CABAC products should be on your order list. Introducing new industrial sprays that will become standard items in most toolboxes and utes. They are versatile, multipurpose, and easy to use.

The new CABAC aerosol range is here!

ZINC CH533

CABAC ZINC is 99% epoxy based Zinc rich coating used to inhibit rust and corrosion of metal surfaces.

- Zinc rich coating for corrosion & rust protection
- 99% zinc pigment electrochemically bond to metal
- Provides active galvanic protection

24-7 ELECTRICAL FORMULA CH334

CABAC 24-7 is a multi functional formula which protects, lubricates and prevents electrical failure under poor environmental conditions such as moisture, corrosion, dirt, friction, flooding, high humidity, salt air etc.

- Multi functional product to prevent electrical failure
- Protects from high humidity & moisture-laden air
- Cleans & lubricates precision parts
- Penetrates frozen & rusted parts
- Displaces moisture

SILICONE 1000 CH314

CABAC SILICONE 1000 is a high quality electrical insulation compound with excellent water and moisture resistant properties.

- High quality insulation oil (breakdown voltage 12 kv/mm)
- Inert clear film, water repellent, moisture buffer
- Universal lubrication for plastics and rubber
- Non toxic, non staining (temperature range -50˚C to 200˚C)
- Eliminates current creepage, corona effects, shorts

BLUE LUBE CH377 Also available in 20lt tubs CH377L20

CABAC BLUE LUBE is a versatile blend of lubricants, wetting agents and bacticides specially formulated to ease cables through conduits.

- Cable pulling lubricant
- Ideal for horizontal and vertical pulls
- Non-toxic, non-flammable
- Compatible with all common cable types
- Superior friction reduction

ELECTRO CLEAN CH125

CABAC ELECTRO CLEAN is a powerful mixture of solvents for heavy duty cleaning and degreasing of electrical, mechanical and auto electrical equipment.

- Heavy-duty electrical equipment cleaner
- Non flammable, non conductive, no corrosive, residue free
- Removes oil, grease, wax, dirt, moisture, fats
- Contains chlorinated solvents
- May affect some plastics and paints

CONTACT CLEAN CH115

CABAC CONTACT CLEAN is a blend of high performing inert cleaning solvents, for use on all electronic and precision equipment.

- Cleans sensitive components
- Plastic safe, rapid evaporation, low toxicity
- Removes light grease, oil, dirt, dust
- Contains no CFC's or chlorinated solvents

CIRCUIT REVIVER CH174

CABAC CIRCUIT REVIVER is an oil based cleaner that efficiently removes carbon, sulphide and oxide layers from all metallic contact surfaces.

- Removes oxide, sulphide and carbon
- Use to remove contamination residue
- Inhibitors give lubrication and corrosive protection

CIRCUIT CLEAN CH135

CABAC CIRCUIT CLEAN is a powerful mixture of solvents for heavy duty cleaning and degreasing of electrical, mechanical and auto electrical equipment.

- Universal cleaner for electrical equipment
- Harmless to plastics, controlled evaporation
- Removes oil, grease, dirt, grime, moisture
- Special mixture of heavy-duty solvents

Brought to you by popular demand

It's here at last! An alternative range of industrial aerosol products from a supplier you can depend on.

CABAC has established a trade record of service to the electrical & industrial contractors market with a wide range of products.

With the introduction of the CABAC range you now have a reliable alternative.

Why buy the new CABAC range?

Quality: a trusted alternative to leading brands

Superior Formulation: tried, tested and proven
